RWL Introduction

RWL Advanced Solutions are specialist distributors in the Data and Security industry and have locations in both Dublin and Cork.

We represent the leading manufacturers in the Data and Security market in Ireland. With an experienced team of individuals with extensive industry experience we offer a comprehensive pre and post-sales service. With our new refurbished trade counter in both locations, a new dimension has recently been added to our customer focussed approach.

In addition to Ireland, we invest significant resource to our International Sales, where we have achieved success in locations such as Casablanca, Helsinki, London, Milan and Glasgow.

Our product portfolio includes Intruder, CCTV, Access Control, Fire, Cable, Gate Automation, Structured Cabling Systems, Enclosures, UPS and general accessories.

Through our experienced personnel, significant stock holding and established partners, RWL Advanced Solutions delivers the broadest range of leading brands in both the Data and Security Markets today.
